

News From The Center

Greetings from the Director

Welcome back for the first 2007 edition of News from the Center. Snow sprinkles notwithstanding, the spring semester is well under way. Tests and papers are prevalent now, so student presence in the library is way up! Remind your student if they are stressed that all academic assistance is free for them – the website with all of our services is: <http://www.longwood.edu/library/services/>

Spring Issue, 2007

“Never regard study as a duty but as the enviable opportunity to learn.”
Albert Einstein

Spring Break

While dreams of a week in the warm sun may be calling your student, please keep in mind that spring break should also be a time to finalize plans for a summer job or internship. An internship is a requirement, but also a fabulous chance to make future job connections!

Checking Email and Hold Flags

“Do not worry about your problems with mathematics, I assure you mine are far greater.”
Albert Einstein

Please encourage your student to get into the habit of checking their WIN account at least once every day. The same is true of their Longwood email.

With midterm grades approaching and registration following soon after that, students will not want to get caught with unexpected holds. Registration for summer and fall starts soon after Spring break, so a visit to their advisor should happen in the next few weeks!

We are making the exciting switch to the Banner computer system for registration next month. While students may not see much of a difference, it is good to know that all possible “roadblocks” have been attended to!
