Additional Information:

The Campus Security Act requires that reportable crimes be broken down into four categories: on campus, non-campus, public property, and student residences. The term "campus" means any building or property owned or controlled by an institution of higher education within the same reasonably contiguous geographic area of the institution and used by the institution in direct support of, or in a manner related to, the institution's educational purposes, including residences, halls, and property within the same reasonably contiguous geographic area of the institution that is owned by the institution, but controlled by another person, is used by students, and supports institutional purposes (such as a food or other retail vendor). The term "non-campus" means any building or property owned or controlled by a student organization recognized by the institution and any building or property (other than a branch campus) owned or controlled by an institution of higher education that is used in direct support of, or in relation to, the institution's educational purposes, is used by students, and is not within the same reasonable contiguous geographic area of the institution. The term "public property" means all public property--including thoroughfares, streets, sidewalks, and parking facilities--that is within the campus, or immediately adjacent to and accessible from the campus. Previously, on campus, non-campus, and student residences were reported as a single crime statistic for a given crime. Crimes that occurred off campus property were not previously reportable. An enumerated crime that occurs on property immediately adjacent to or within an area up to the far curbing of any street adjacent to campus property is now reported under the "public property" category. ***
