

The Longwood University Board of Visitors will meet on Friday, May 17, 2019 in Stallard Board Room. The Board expects to take action on tuition and mandatory fees for the 2019-2020 academic year. Rate increases of between 0 and 5.0 percent will be considered. Any increase would be required to meet increased costs related to essential services such as utilities, costs related to employee compensation, and costs related to implementation of student services that help keep students on track to graduation.
