Description: Let's get the conversation started! Designed for parents, caregivers and young people to watch together, Talking Together addresses the critical need for sex education for developmentally disabled young people by providing step-by-step information and direction. Real life parents, their DD young adult sons and daughters, and educators demonstrate practical models to empower parents and caregivers to arm our young people with life saving knowledge and strategies. A detailed sex education segment includes: reproductive anatomy, pregnancy, contraception, and disease prevention. The mysterious, often elusive world of social skills is considered along with the desire for friendship, companionship, romance and relationships. Public/private behavior is also covered.
