children from contracting health problems associated with such diseases. This video is part of *The Human Condition* series.

Sexually Transmitted Diseases

Distributed by: Aquarius Health Care Videos

Date: 2000

Length: 28 minutes

Grades: unknown

To purchase: visit www.aquariusproductions.com

Description: HIV is the most famous sexually transmitted disease of the recent past, but its notoriety has kept awareness of other STDs to a minimum, leading many to believe that if you can keep away from HIV, you don't have to worry. This program looks at the rising numbers of other, "silent" STDs that have led to rising numbers of infertile women, affected babies, related cases of cancer. There is specific information about prevention; diagnosis and treatment of the most common non-STDs. Nationally known researchers interviewed include King K. Holmes, MD, PhD, Director of the Center for AIDS and STD at the University of Washington and human papilloma virus researcher Diane M. Harper, MD at the Dartmouth-Hitchcock Medical Center. Part of *The Doctor Is In* series.

Date: 2000

Length: 28 minutes

Grades: 7-12

To purchase: visit <http://www.sunburst.com> or call 800-431-1934

Description: This program presents up-to-the-minute, detailed facts about common STDs and their symptoms and treatment. Citing the increased vulnerability to AIDS that STDs give rise to, this video urges teens to take responsibility for their own health and stresses abstinence as the only sure method of preventing any STD. Interweaving these stories, two STD hotline counselors and an STD clinic doctor use detailed, candid language to discuss genital warts, Chlamydia, herpes, HIV, and other common STDs, and the harm each can do if left untreated. The presenters advise viewers with any symptoms of an STD to seek early treatment. Urges viewers who are sexually active to protect themselves against STDs through consistent and proper use of condoms, and calls abstinence the best choice for staying healthy and safe. A Teacher's Guide is included.

What Teens Want To Know about Sex

Distributed by: Sunburst Technology

Date: 2000

Length: 28 minutes

Grades: 7-12

To purchase: visit <http://www.sunburst.com> or call 800-431-1934

Facts on...STDs

Distributed by: Films for the Humanities and Sciences

Date: 2002

To purchase: [visit www.films.com](http://www.films.com)

Description: Fact: Whether they know it or not, young adults desperately need to be informed about sexually transmitted diseases. Fact: Most young adults (a) think they already know it all, (b) believe it'll never happen to them, and (c) are too embarrassed to confront the subject head-on. Fortunately, there is *Facts on...STDs* to help students get the vital information they need. Conversational in tone yet authoritative in content, this interactive electronic reference guide gives the straight facts on ten frequently encountered STDs: HIV/AIDS, cancrroids, Chlamydia, gonorrhea, Hepatitis B, herpes simplex 1 and 2, pubic lice and scabies, syphilis, trichomoniasis, and HPV. Real-life images support the disc's targeted data on symptoms, complications, treatments, and prevention, while fact vs. myth quizzes help students avoid the pitfalls of street-corner misinformation. Plus, a list of frequently asked questions can put into words the thoughts some students may be too shy to verbalize, while a listing of STD-related hotlines, Web sites, and educational resources is provided for any who may want more information. A glossary helps ensure that specialized terminology is crystal clear, and each disease profile is printable, for handy offline reference. This CD-ROM is ideal for use in health education, family and consumer science, and social studies curriculums. The content and instructional approach correlates with The National Health Education Learning Standards. This is a Cambridge Educational Production and a Windows/Macintosh CD-ROM is included.
